

# Professional Baby Care

MOTHERS KNOW BEST

## Infant Care, Thoughtfully Crafted for Gentle Protection

Based on extensive market research and product analysis, our diapers use years of R&D expertise to deliver well-designed solutions.

We select only soft, breathable, and high-quality materials for comfort, protection, and performance that babies and parents can rely on.

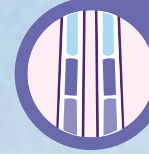

### Premium 3D Fit Technology

For tailored comfort that moves with your baby.

### Fibrillated Full-Mesh Composite Core

Prevents the diaper from clumping while in use.

### Multi-Layer Moisture-Locking System

Advanced protection against diaper re-wet.

### T-Shaped Dual 3D Design

Leak-proof technology for total peace of mind.

### High-Performance Absorbent Core

Quick and repeated absorption for lasting dryness.

### Double U-Shaped Fit Design

Contours naturally for a flexible fit and secure movement.

### Bubble-Waist Comfort Panel

Breathability waistband for all-day comfort.

## Explanation

\* Absorption Speed in diaper testing is a key indicator of absorption performance, reflecting how quickly a diaper absorbs liquid. A shorter time means faster urine absorption into the inner layer, reducing surface wetness, improving comfort, and lowering skin irritation risk.

\*\* Re-wet testing measures how much liquid from a diaper's inner absorbent layer reappears on the surface touching the skin after absorption. It reflects the diaper's ability to lock in moisture, preventing rewetting and reducing skin irritation risk.

\*\*\* Diffusion length in diaper testing refers to the maximum distance that liquid (such as urine) spreads across the surface of the diaper before being fully absorbed. This metric evaluates how evenly and effectively the diaper distributes liquid to its absorption core. A shorter diffusion length may indicate uneven absorption, potentially leading to leakage or prolonged skin contact with moisture, while a longer, more controlled diffusion length suggests better liquid dispersion and absorption efficiency, enhancing dryness and comfort for the baby

**Launch Your Diaper Business  
Faster — With Ready Stock &  
Full Marketing Support**

We offer low-MOQ ready stock and a complete marketing kit — retail displays for supermarkets and digital assets for e-commerce — so you can launch your diaper business quickly, online or offline.  
**Start Fast, Sell Confidently**

**In-Store Display Kits**

Let customers experience the quality firsthand and instantly grasp your key selling points.

**Outdoor Roadshow Kits** Amplify your brand message and product benefits to drive sales wherever you go.

# Certifications

## Certifications

Keetop meets global quality and safety standards with certifications including: ISO9001, ISO14001, ISO13485, BRC (British Retail Consortium – Global Standard for Consumer Products), and GoST.

## Our Mission

At Keetop, we aim to inspire healthier habits across generations by promoting the use of high-quality disposable hygiene products. We strive to improve everyday care while remaining affordable for families worldwide.

## Factory-Direct Price

With two modern manufacturing bases and a strong supply chain, Keetop offers competitive factory-direct pricing and flexible OEM/ODM services to support your business growth worldwide.

## Rising Star in Hygiene Products

### Welcome to Keetop

We are a modern enterprise specializing in the R&D, production, sales of disposable hygiene products. Our product lines include adult and baby diapers, nursing pads, sanitary napkins, wipes, and other hygiene and medical disposables, catering to consumers of all age groups and needs.

With two modern production bases in Sichuan and Fujian, we have established strategic partnerships with two listed companies: Hengtian Hailong (Stock Code: 000677) and Xiamen Jianfa (a Fortune Global 500 company, Stock Code: 600153). Through a dual-driven development model of brand operation and ODM services, we are committed to providing global consumers with safe, healthy, and eco-friendly high-quality personal care products.
